Campaign Performance Insights

2026 MARKET PLANNING

By Vishwas Tilwani

EXECUTIVE SUMMARY

- **Health & Education deliver the strongest ROI**, making them priority sectors for 2026.
- **Fashion underperforms across profitability** despite high conversion → cost-side inefficiencies.
- **Education has the lowest conversion rate**, signaling a funnel optimization opportunity.
- **Fashion has the highest CPA**, while **Health & Education remain most cost-efficient**.
- **Low-satisfaction campaigns show the highest ROAS**, indicating expectation-setting and communication gaps.
- **Youths 18–24 & Professionals 35–50 are the strongest audiences**, with high-quality conversions.
- **Parents 30–40 show high engagement but weak conversion**, implying relevance or messaging issues.
- **All sectors overspend budgets by 2.5×–2.7×**, exposing forecasting and pacing challenges.
- **Shift toward ongoing campaigns in 2024** suggests longer campaign cycles and changing workload patterns.

Analytical Criteria:

CTR = Clicks / Impressions ('000 × 1000)

CVR = Conversions / Clicks

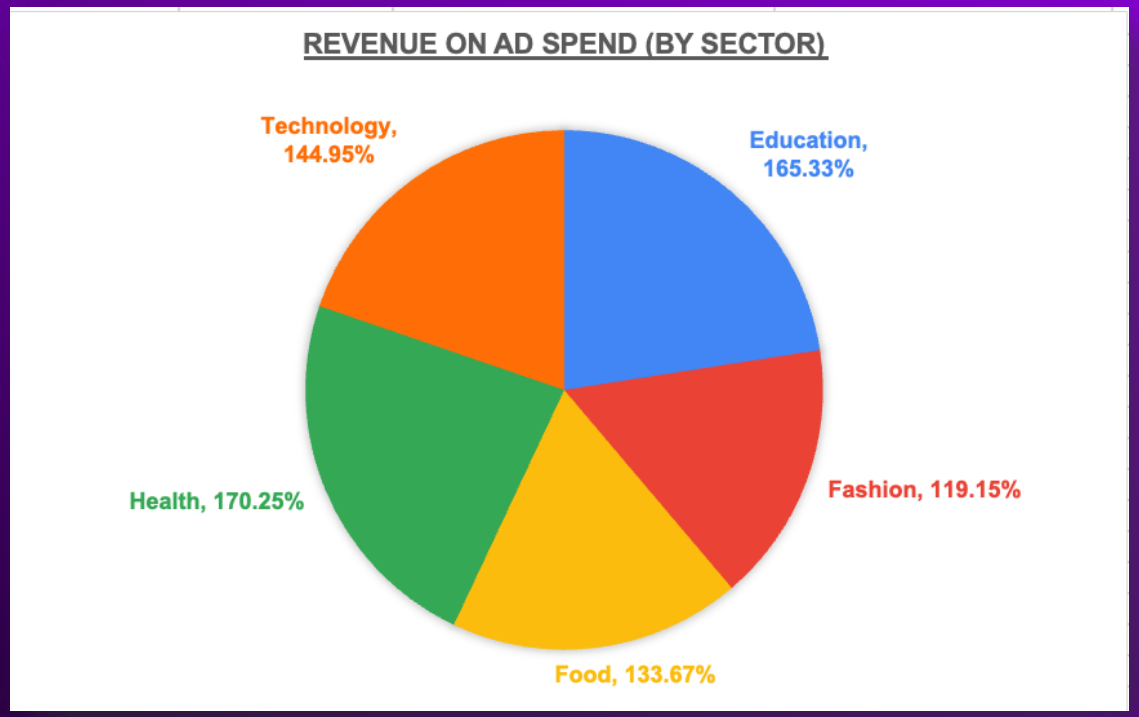
ROAS = Revenue / Ad Spend

CPA = Ad Spend / Conversions

Satisfaction Rating Classification:
Low <2, Medium 2–4, High = 5

Campaign classification based on Completion Date i.e. Ongoing and Completed.

RETURN ON AD SPEND (ROAS) BY SECTOR

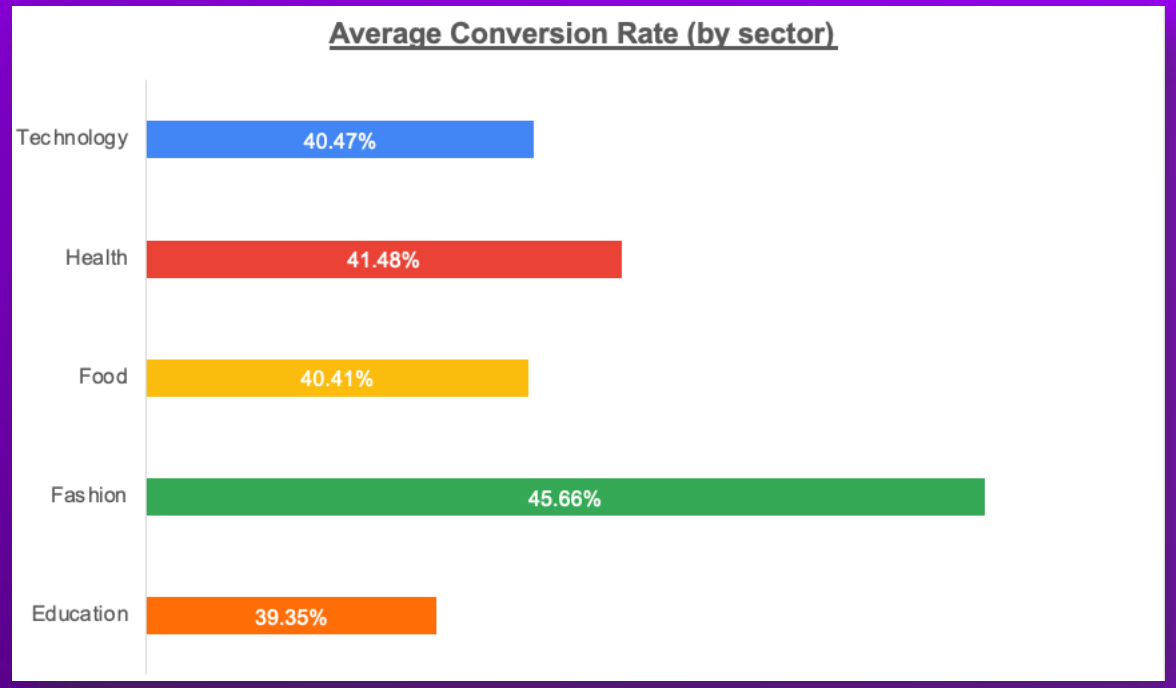


- Health & Education show the strongest ROAS (165–170%).
- Fashion underperforms comparatively (119%).
- Technology & Food deliver mid-range returns.

ROAS - Revenue / Ad Spend

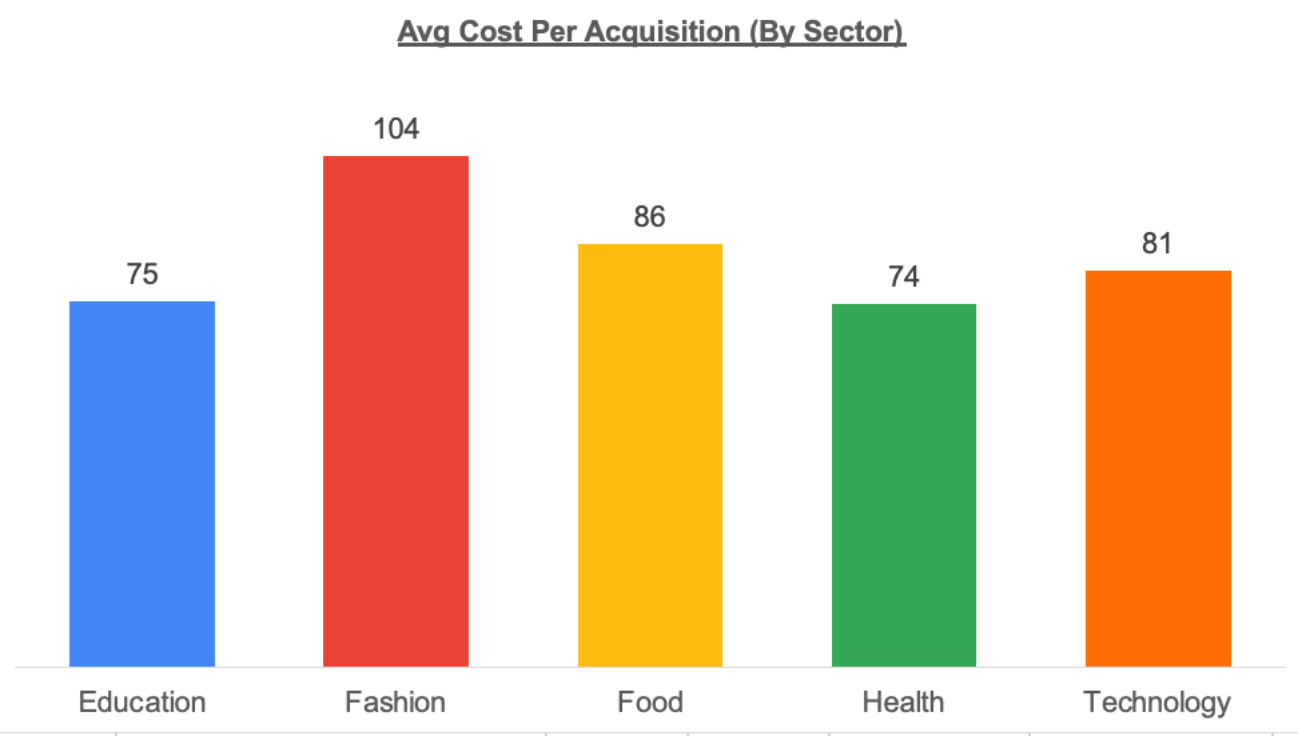
CONVERSTION RATE (CVR) BY SECTOR

- Fashion has the highest conversion rate (~45.7%).
- Health & Technology show strong, consistent conversion.
- Education has the lowest CVR (~39.3%) → funnel inefficiency.



CVR = Conversions / Clicks

COST PER ACQUISITION (CPA) BY SECTOR

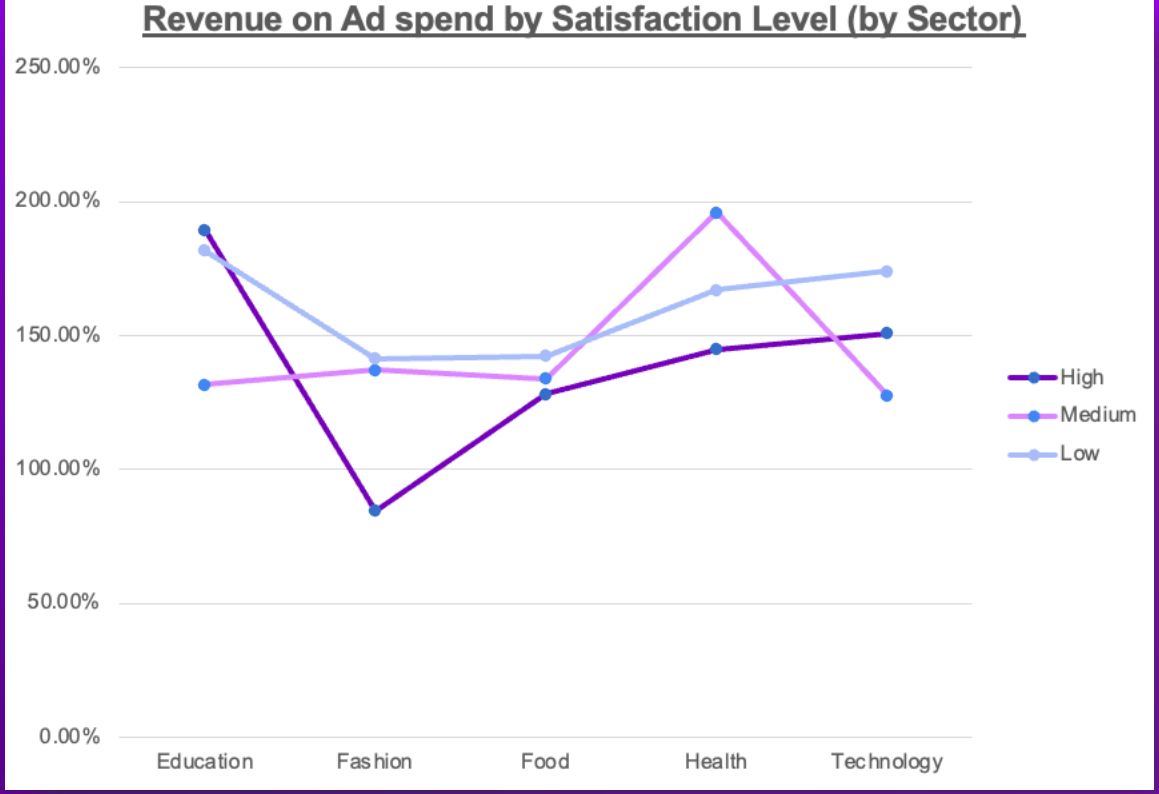


- Fashion has the highest CPA (~$104) -> least cost-efficient.
- Education and Health are most efficient (~$75).
- Food and Technology is in the mid-range.

CPA = Ad Spend / Conversions

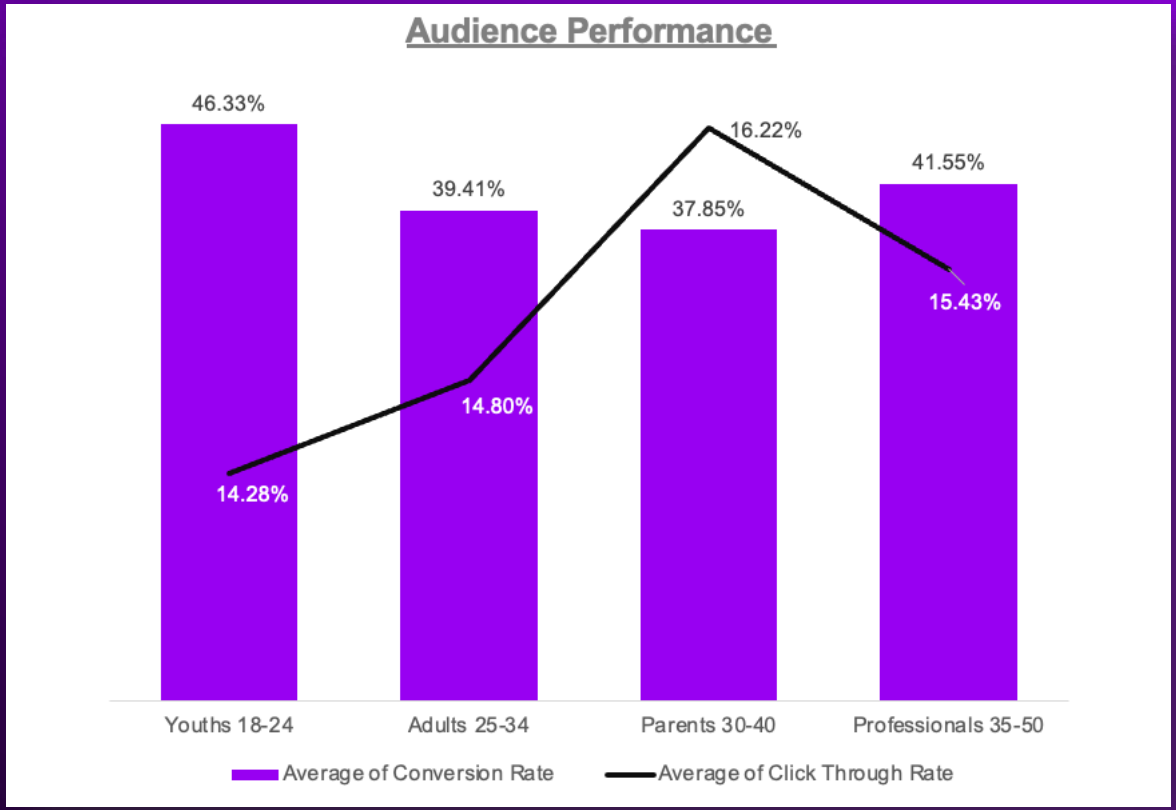
SATISFACTION RATING VS ROAS

- Low-satisfaction campaigns show the highest ROAS.
- High satisfaction ≠ highest performance (expectation gap).
- Opportunity to improve communication & account management.



Satisfaction Rating Classification:
Low <2, Medium 2–4, High = 5

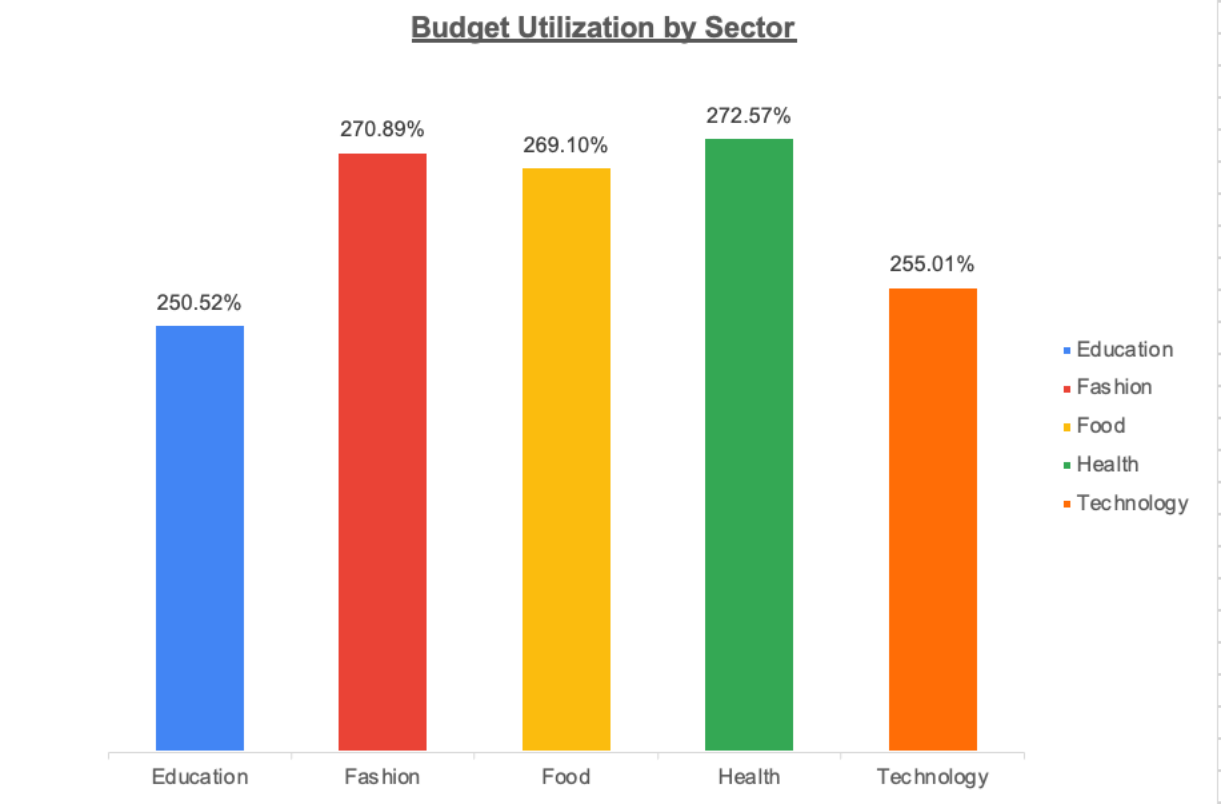
AUDIENCE PERFORMANCE



- Youths 18–24 show the highest CVR (~46%).
- Parents 30–40 have the lowest CVR (~38%).
- Adults 25–34 & Parents overlap in performance.

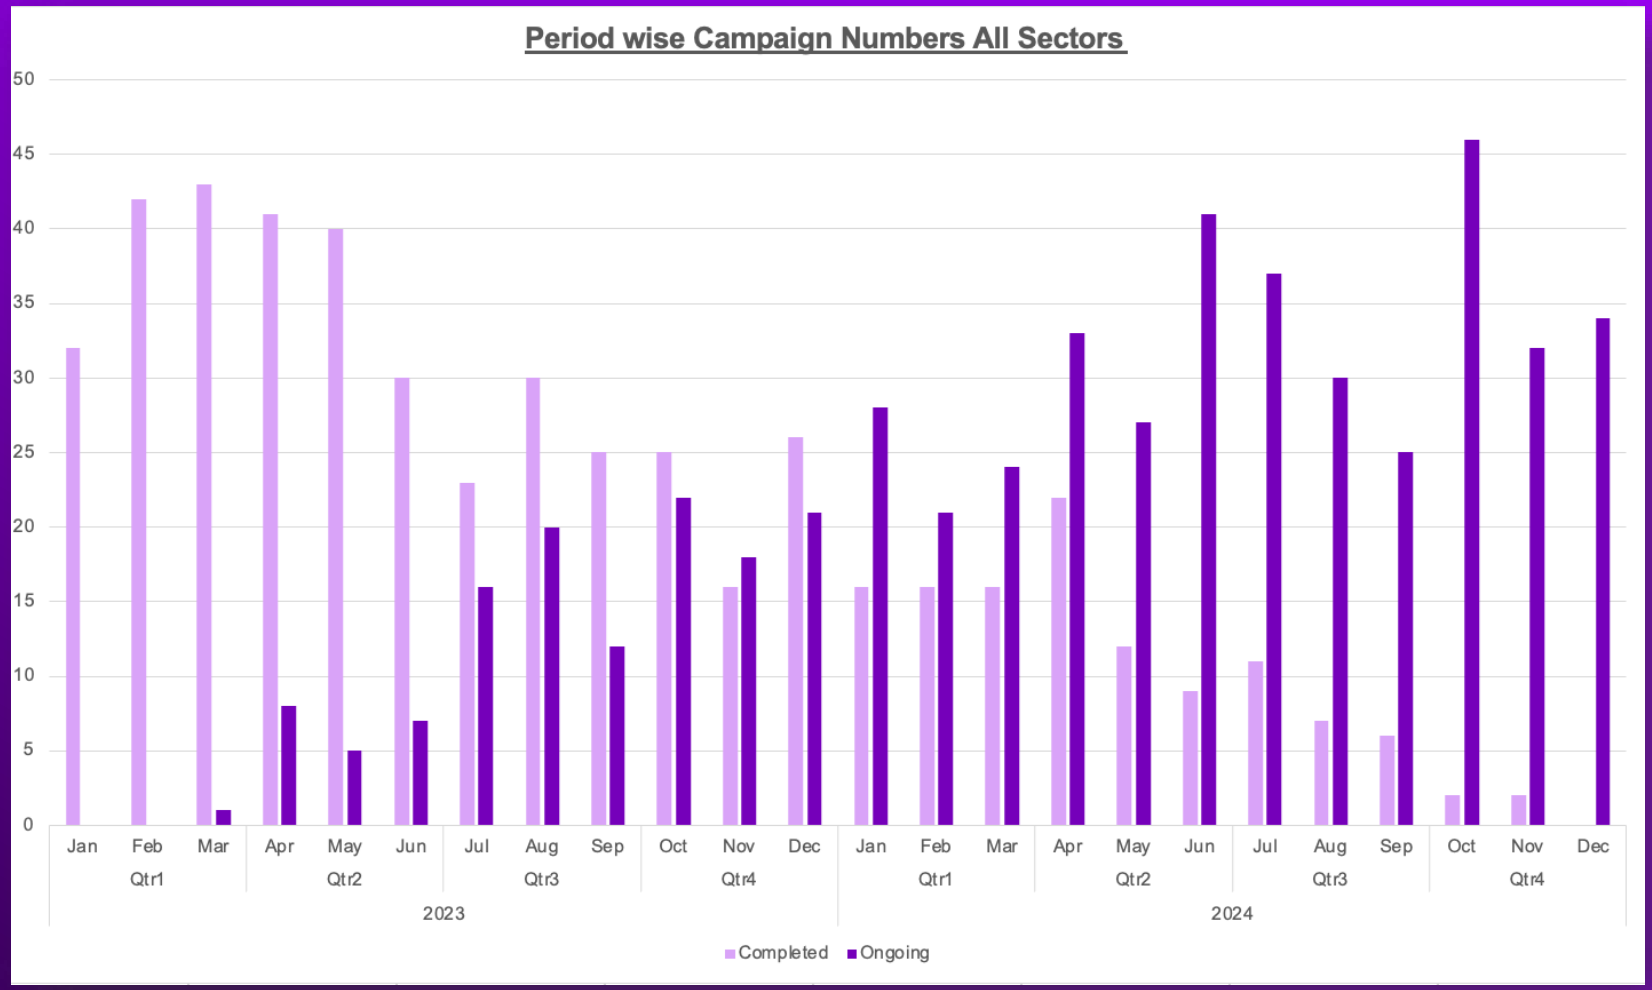
BUDGET UTILIZATION

- All sectors exceed planned budgets by 2.5×–2.7×.
- Indicates systemic forecasting and pacing issues.
- Suggests reactive spending instead of planned execution.



PERIOD WISE CAMPAIGN NUMBERS (ALL SECTORS)

- 2023 shows more completed campaigns; 2024 shifts heavily to ongoing campaigns.
- Clear seasonal peaks: early-year surges, mid-year slowdowns.
- Indicates shift toward longer, continuously running campaigns.



RECOMMENDATIONS

- **Invest in high-performing sectors:** Focus on **Health & Education** for scalable ROI.
- **Optimize weak-performing areas:** Fix **Fashion's cost inefficiencies** and improve **Education's conversion funnel**.
- **Fix operational gaps:** Address **budget overspend**, pacing issues, and client **expectation alignment**.
- **Refine targeting strategy:** Priorities **high-quality audiences**, adjust messaging for **Parents 30–40**.
- **Support shifting campaign patterns:** Plan resources for the **increase in ongoing, long-running campaigns**.
